*Made to cut
Fiberglass and
other tough
materials*

- Top quality, German stainless-steel, Ice-tempered for a long lasting cutting edge
- 431 Surgical Steel - superior 56-58 hardness
- Blades are thick and designed for multiple sharpenings for a long service life.
- Designed to cut at an optimum 20-25 degree angle under normal hand opening
- Lower Blades designed with slight curve so they cut extra smooth
- Limited lifetime warrantee on the patented, ergonomically designed, molded handles.
- Although primarily designed as right-handed cutting scissors they are comfortable and completely useable with the left hand also.

KNIFE EDGE HEAVY DUTY SCISSORS

Actual Size

Lance® handsewing needles are carefully crafted of carbon steel and fully nickel-plated. Each needle is precisely drawn to an exact diameter. All needles shown on this page are actual size.

Lance® Betweens

Short needles, used for detailed handwork, such as fine stitching on heavy fabric. Used in tailoring and quilting.

Available in packages of 25 needles of one size, 1 through 12; or 25 needles of assorted sizes, 3 through 9 (3/9).

Minimum order: 40 packages of any one item (40 x 25 needles). 40 packages = 1M. Please specify needle size.

Lance® Sharps

Medium length needles. Sharps are the most commonly used hand sewing needles.

Available in packages of 25 needles of one size, 1 through 12; or 25 needles of assorted sizes, 3 through 9 (3/9).

Minimum order: 40 packages of any one item (40 x 25 needles). 40 packages = 1M. Please specify needle size.

Lance® Darners

Long needles, used for basting and darning with cotton.

Available in packages of 25 needles of one size, 1 through 12; or 25 needles of assorted sizes, 3 through 9 (3/9).

Minimum order: 40 packages of any one item (40 x 25 needles). 40 packages = 1M. Please specify needle size.
